

Ranil Jayawardena's

Constituency Conservation Charter

Schedule II

1. We do not support any major greenfield development in the next Local Plan, including Shapley Heath, Rye Common, West of Hook, or urban extensions to Fleet. This is not an exhaustive list.
2. Local councils have already made their decisions for brownfield and greenfield development to 2029 (The Borough of Basingstoke and Deane) and 2032 (Hart District). We will seek to mitigate the impact of these developments by encouraging local councils to adopt the principles in Schedule I as far as possible.
3. We will work to get our councils – including Hampshire County Council – to commit to infrastructure improvements for the greenfield developments already in Local Plans, and to help improve the quality of life of people locally.
